IMPORTANT MEETING OF SUNDAY SCHOOL BOARD

Committee Will Make Plans for District and County Sunday School Conventions at Meeting.

There will be a very important meeting of the County Executive Committee of the Mason County Sunday School Association at the home of J. H. Richardson on Wednesday evening at 7:30 o'clock.

The plans for the district conventions which are to be held on Sunday afternoon, May 21st, at the following places will be made: Orangeburg, Helena, Sardis, Germantown and Dover. The county committee aims to aid each convention with the best Sunday school talent available as well as sending a member of the executive committee to attend each convention.

Then the committee will take up the matter of the county convention program. This will be held at Washington, June 7th. Already the committee has State Superintendent Colvin as one of the leading speakers for this convention. Because of the importance of this meeting every member of the county committee should be at the Wednesday evening meeting.

JAMES BAIRD DIES IN ILLINOIS.

Mrs. James M. Woods has received the sad news of the death of her brother, Mr. James D. Baird, who passed away at 12:30 o'clock on Saturday night, after a complication of diseases. Mr. Baird was 62 years of age, born and reared in Maysville and was a cigar manufacturer for many years here. About thirty years ago he located in DeKalb, Ills. Besides his widow he leaves one daughter and two sons, Mrs. Joseph Judy, of Covington, Ky., and Mrs. James M. Woods, of this city. The burial took place at DeKalb on Monday afternoon.

MAYSVILLE WOMAN WAS INJURED ON ISLAND QUEEN.

Mrs. Len Purnell, of Fifth street, a relative of General U. S. Grant, who attended the centennial celebration at Point Pleasant on last Thursday, was a passenger on the steamer Island Queen and was near the front of the steamer when a deck fell, seriously injuring one and slightly injuring others. Mrs. Purnell was injured by a chair but not seriously.

LETTER AND MAP GAVE NEW CLUE IN THE PARSONS CASE

Stained Clothing Sent To State Chemist for Examination—Dr. Vermilion and John Bramley Made Successful Search in Harlan.

Harlan, Ky., May 2. — Bloodstained underclothes bearing the convict number of Jerry Reed, which have led to issuance of a warrant charging him with the assault and murder of Miss Laura Parsons on Pine Mountain, September 7, 1920, were found in a hollow gum tree, where they were hidden by a trusty, through information and a map given by Frank Brown, a fellow prisoner of Reed in the state reformatory. The underwear has been sent to the state chemist for examination of the stains, some of which are due to mildew, and mould, but no report has been received.

The discovery of the bloody underclothes resulted from a search conducted by Dr. U. S. Vermilion and John Bramley on account of a letter and map that Bramley received from Frank Brown a prisoner in the Frankfort prison. Bramley was a former state prisoner and well acquainted with Brown, who wrote the letter and drew the map and got by the customary prison censorship by handing the letter to a trusty to post.

The letter in substance said the map on the back of the letter would show the Pine Mountain trail and the spot where Laura Parsons was murdered. The map further showed the location of the blacksmith shop where the old Dillon trail crosses the road and a short distance away crosses the road again. At the second cross road the map points the way to a hollow gum tree some 700 feet away from the crossing. In this tree the letter said: were the underclothes that Reed wore on the day of the murder. The letter said the tree was to the left of the trail going down and at a small cliff. The suit of underclothes, Brown's communication said, was hidden in this tree for Reed by a trusty who removed it to the cavity of the gum tree after having carried it from the place it was first hidden by alleged request of Reed. Brown said the trusty was known as "Luke." That night, Brown's letter continued, Reed came into camp wearing nothing but overalls and made application to Brown for underwear.

The ex-prisoner Bramley lives at or near High Split. He is said to have received the letter from Brown in February. The letter bore the Frankfort date line and was dated February 23, of this year, and it is claimed there was no delay of the letter in transit.

Having purchased a home in Clifton I desire to sell my home here at 12 East Third street. Anyone interested please phone 15 or see Mrs. Lee Lovel. 2May2t

COUNTY SCHOOLS CLOSED.

All county schools except the high schools were closed on last Friday and County Superintendent Turnpseed reports that the annual reports of the teachers show one of the most successful school terms in the history of the Mason county schools. There has been good school weather and no epidemic, making attendance at the schools far above the average.

The uniforms will be white sailor suits with blue collars.

NEXT SUNDAY IS BIG DAY IN KENTUCKY SUNDAY SCHOOLS

Great Attendance at Maysville and Mason County Sunday Schools Is Anticipated Next Sunday—Go-To-Sunday-School-Day.

"Go-To-Sunday-School-Day" the big annual turnout of Kentuckians to her Sunday schools does not seem to grow old or tiresome with people. This big Sunday school event which originated in Kentucky, grows in interest each year. And this week enthusiasm is at white-heat temperature again in anticipation of next Sunday, May 7th, the day when it is very unpopular to stay at home.

Mason county has ever been a leader in this work. No county has a greater reputation for systematic boosting for the day. There has been a booster banquet, a county-wide visitation, and an advertising campaign calculated to reach every inhabitant of the county. One need travel but a short distance in any direction to see the familiar sign in windows, on automobiles and other conspicuous places stating in glaring red letters "The First Sunday in May is Go-To-Sunday-School-Day." Everybody knows that is next Sunday. Then the game of tag is being played all over the county. Thousands of the little strips of paste board advertising to the world that "I will be at Sunday school, May 7th" have been distributed to the citizenry of the county.

Every school is preparing for the largest attendance they have ever had. The county goal is 8,500, over a thousand more than last year which up until that time was the banner year. The schools have also pledged the county committee the \$500 asked for to carry on the work in a progressive way. The offering next Sunday, or enough of it to make this amount will go for this purpose.

FISCAL COURT MET ON MONDAY.

The regular semi-monthly meeting of the Mason Fiscal Court was held on Monday but no important business was transacted. The regular monthly inspection of the County Infirmary was made by the County Commissioners and County Judge Purnell.

NOTICE ODD FELLOWS.

Regular weekly meeting of DeKalb Lodge No. 12, I. O. O. F., will be held Tuesday evening at 7:30 o'clock at the hall in Second street. All members are urged to be present.

CINCINNATI WOMEN WILL GIVE BENEFIT FOR BAND

Mothers of Democracy Will Give Benefit to Replace Damaged Instrument of Manchester School Band.

Tuesday's Cincinnati Enquirer says:

Musical instruments belonging to members of the Manchester Boys' Band, which were destroyed when the upper deck of the steamer Island Queen fell on the trip to Point Pleasant last Thursday, and several youthful musicians were injured, are to be replaced. The Mothers of Democracy, of which Mrs. Andrew H. Foppe is President, and co-operating organizations are planning a benefit entertainment within a few weeks for that purpose.

Francis H. Henderson, 12, clarinet player of the band, who suffered spinal injuries, was taken home yesterday, wearing a plaster cast, and Eugene Scott also was taken home. Wilbur Morgan

THE FARMER AND THE "CONSUMER"

Detroit, Mich., April 5, 1922.

Editor of The Journal of Commerce and Commercial Bulletin:

Sir:—In your April 4 issue is an editorial entitled "Characteristic Tariff Action," which I might term a characteristic editorial.

You gentlemen in New York seem to care very little for the prosperity of the country beyond the Appalachian Mountains, and think only of your little measly export trade as though the face of the whole country depended on the volume of our exports. Can you realize that the happiness and prosperity of the man on the farm in the great West is vital to your best interest?

You talk about the consumer suffering, and by consumer you evidently mean the working men in New York city and immediate vicinity, but the industry in New York city is paralyzed when the farmers of the country lose their purchasing power, and of what use is it to your consumers to buy their food products slightly cheaper if they do not have jobs and money with which to buy their food?

You refer respectively to coconut oil, which when made into "nut butter" is a competitor of real butter. The production of butter on our farms gives a livelihood to several million farmers and their families. The money that these farmers earn by the production of butter enables them to contribute to the support of our Government and all the public institutes; it enables the states to build roads and schools and churches; it enables our farmers to raise boys that can and do respond to the call of the country in time of war or other trouble.

If instead of the consumer, to whom you so plaintively refer, paying his money to the American farmer for butter, this same money goes to the tropical countries for the purchase of vegetable oils, then the prosperity of these tropical countries is built up. Instead of roads being built in the United States, they are built in foreign countries; foreign schools and foreign churches are built, and we are contributing to the support and development of countries that some day or other may be at war with us, and when that time comes where will the boys be on whom we can depend to defend the country? Certainly they will not be on the farms.

If your free trade views were carried out this nation would no longer be an agricultural country, but we would be devoted largely to mines and manufacturing; our people would be concentrated in the big cities; our big agricultural states would diminish in population and sink into poverty, and we would have to depend on foreign countries for our food, a very slender support in time of trouble.

Very truly yours,

CHARLES STAFF.

It is noticed that further appears are being made for support for the Wilson Foundation. By the way, we thought the word had been put out that this thing would be wound up on April 6, "the anniversary of our entrance into the war." The public was bombarded with appeals and importunities, there was no end of an effort to create enthusiasm, and the world was informed that the thing was going over big. But it didn't. It didn't go over at all, and now its promoters are standing out in front, dolefully playing their hand organ, and looking as woe-begone and poverty stricken as possible. This professional mendicancy in the holy name of Woodrow Wilson is becoming exceedingly tiresome. Apparently the people are not yet convinced that he is "one of the greatest figures in history."—Fort Wayne News.

The State Department made a profit of \$6,000,000 last year in passport fees. Here is a form of tax that should commend itself to all. Anybody who can afford to buy an ocean steamer ticket should not object to paying a small fee for a passport.

The New York World, leader of the Democratic press, reprints commendation of itself by H. G. Wells, the British author. The World ought to be able to find any number of commendations of its policies by British authors.

William Z. Foster, who formerly enjoyed the cooperation of Mr. Gompers, radical though he was, is now under the ban. Mr. Gompers is finding out that there are some things this country won't stand for.

The Democrats are thoroughly disgusted with the Republican tariff bill. Well, we didn't expect a Democrat to be satisfied with anything that tends to help the American farmer.

And each additional special election to fill a vacancy in Congress results in the election of a Republican—if North of the Mason and Dixon line.

Omaha Bee—Germany and Russia have signed a new treaty, yet what the world would most appreciate would be a check on account.

HIT-OR-MISS EFFECT
OF MOVIES DEPLORED

Movement Afoot to Show Boys and Girls Films That Build Character.

Chicago.—When former Postmaster General Will H. Hays said he expects to "see movies in every school and church in this country," his idea was not so Utopian as one might suppose at first thought, declares Wyndham Phinny, who has been making for the Society for Visual Education a study of the motion picture needs of the non-theatrical field.

"It is estimated that 15,000 schools and churches have already adopted motion pictures as a means of instruction and entertainment. Most of the remainder, some 500,000, will undoubtedly follow suit as soon as there are enough suitable films to supply them and as soon as the prejudice which exists in certain quarters is dispelled. Signs that this prejudice is already giving way are apparent in the action of Yale University, which has begun production of one hundred reels dealing with every important stage in the development of America. The editors-in-chief of the series are Dr. Max Farrand and Dr. Frank E. Spaulding."

The educational movie has been seriously discussed for at least twenty years, some claiming too much for it and others too little. According to Mr. Phinny, however, "we are just beginning to glimpse the true breadth of its mission. In addition to the exposition of the three R's and all their ramifications, its great power can be systematically utilized for character-building. The movie's hit-or-miss influence for good or evil, as the case may be, is well illustrated by the way in which children answered a query put by a New Hampshire school teacher.

"Whom do you most wish to resemble when you grow up?" she asked. Out of twenty-six third and fourth grade classes the largest number of girls answered "Teacher." No one else received more than one vote—not even mother. When the same question was put to thirty-four classes in the seventh and eighth grades, however, the answers indicated a very different trend of thought. The majority voted for stage favorites, with a tie between Pearl White, the movie actress, and Anna Case, the operatic star!"

Very little children do not see many movies. Teacher, father and mother hold first place. But the older boys and girls widen their horizon and "grow by what they feed on."

"Why not see it that the right kind of mental food is prepared and fed to these young, impressionable minds while children are under the control of parents and teachers?" pertinently asks Mr. Phinny. "With the screen's help the schools can accomplish wonder in this direction without the expenditure of extra time and without having to add a new subject

SURE TO HELP
SICK WOMEN

Mrs. Baker, So Much Benefited by Lydia E. Pinkham's Vegetable Compound, Anxious to Help Others

Lebanon, Indiana.—"I was completely run down from women's troubles and stomach trouble and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to others, as I am sure it will be a great help to all sick women. It is a wonderful medicine, and I give you permission to use my testimonial and my photograph."—Mrs. EMMA BAKER, 310 S. East St., Lebanon, Indiana.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject. Mrs. Baker calls it "a wonderful medicine." If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Baker and many, many other women.

to the curriculum." To bear out his point of view, Mr. Phinny quotes a recent address given by Dr. Spaulding of Yale University. According to Dr. Spaulding, every important development which makes up the educational progress of the last quarter-century has represented a business demand, and has justified itself chiefly in terms of its contribution to material prosperity.

"With the annual expenditure of a billion dollars," declares Mr. Phinny, "we have achieved industrial success, but is this all we want our educational methods to achieve? In the words of Dr. Spaulding, 'Is this overwhelming color of individual, material success satisfactory? Is it a safe color in which to prepare our youth to see the facts of life? Are we not losing much that is fine and ennobling while we pride ourselves on our strength in the world of business?'"

Histories and school teachers have told children about the great men who have built up our country; they have given the facts about useful inventions and they have explained the revelations of science. Our boys and girls have salted down these facts as they have the multiplication tables; they have become merely potential bread-winners.

"But let us show them American history on the screen," says Mr. Phinny, "let us picture for them the lives of great statesmen, scientists and inventors, and the sacrifices such men made to achieve. Given such visualized teaching, boys and girls will do more than simply catalogue data. There will be a spiritual awakening, an inspiration from the contemplation of these high ideals. True values will be taking the place of sham, and good will be so deeply implanted that it will find expression in action. Boys who see and understand a film like 'Hats Off' will gain a deeper love of country and never forget to salute the flag. Youngsters who see nature study films like 'The Monarch Butterfly' and 'Toads' will never again be possessed of a desire to kill helpless creatures.

"Children who come under the influence of such pictures as we are planning will be found aligning themselves with the good in our democratic government and assisting it to approach their own high ideals. It is hardly possible to expect too much good to result, for from the motion picture emanates a subtle influence which verbal preachments often fail to put over, and which comparatively few children extract from books alone."

POSTAL IMPROVEMENT
WEEK IS OBSERVED

May 1 Sees Inaugurated First General Campaign of Kind in Service.

Without the Postal Service, business would languish in a day, and be at a standstill in a week. Public opinion would die of dry rot. Sectional hatred or prejudice only would flourish, and narrow-mindedness thrive.

It is the biggest distinctive business in the world and it comes nearer to the innermost interests of a greater number of men and women than any other institution on earth. No private business, however widespread, touches so many lives so often or sharply; no church reaches into so many souls, flutters so many pulses, has so many human beings dependent on its ministrations.

"Postal Improvement Week" has been set for May 1, by the Postmaster General. This is the first general campaign of its kind in the Postal Service for several decades. Business men and their organizations, large users of the mail, newspapers, motion pictures, advertisers, and the entire organization of 326,000 postal workers are to be enlisted in this country-wide campaign of interest in postal improvements. Your help is vital. Address your letters plainly with pen or typewriter. Give street address. Spell out name of State, don't abbreviate. Put your return address in the upper left hand corner of envelope (not on the back) and always look at your letter before dropping in the mail to see if it is properly addressed. This care in the use of the mails is for your benefit and speeds up the dispatch and delivery of mail matter.

If you have any complaints of poor service make them to your postmaster. He has instructions to investigate them and report to the department.

COURTESY

It sticks in human relations like postage stamps on letters. The POST OFFICE DEPARTMENT expects it to be used by its postmasters and employees in dealing with the public.

Newport — A ruling by Judge A. M. Caldwell, of the Campbell circuit court relative of indictments against Charles and Albert Fisher, of Bellevue and Albert and Walter Bethge of Dayton, charged with having slot machines in their possession, may result in the dismissal of a number of other indictments. The defendants were dismissed after the court ruled that the evidence in the cases obtained by the soldiers during raids was illegal because the raids were conducted without search warrants.

New York Letter

New York. — Just think of making three hundred different kinds of noises for a living! Isn't it a frightful sounding life? But a man who does it doesn't seem disturbed at all by his occupation. H. Manne is his name and he works in a little laboratory down in the orchestra pit of a local motion picture theater. Noises, inspiring, unearthly, and comic proceed from that corner. Drums that crack as the villains die from the pistol of the righteous hero; anvil choruses—oh, everything! Mr. Manne carries a full line of assorted noises. Hardly anything can happen that he can't supply the proper crash or whine for. Ranged about him and within arm-stretch of his chair, they hang or stand on the floor; whistles that shrill like banshees; a sounding box that clicks like a telephone — as I said, EVERYTHING that belongs to the world of noises in this noisy age of a noisy world. And he rejoices in the thought that in the epoch of realistic drama, there is nothing, no one quite so realistic in results as he.

The growth of the co-operative idea has never been better illustrated than in the recent movement for Commonwealth Chapters of the Commonwealth Club, which started here and is spreading all over the country. In Springfield, Mass., the chapter has more than 200 members and is headed by George A. Bacon, a prominent lawyer, there, the cities through New England are forming chapters and it is expected that there will be scores of them scattered all over the country before the end of the year. The chapters are local units of the Commonwealth Club which is part of the Hotel Commonwealth now building here. The chairman of each chapter will be a delegate to attend all meetings of the Commonwealth Club in New York City, and at these meetings all questions of policy, such as the fixing of rates at the hotel, will be decided. This hotel will have 2500 rooms and the most modern accommodations, including a complete equipment of radio telephone.

A performance of understudies! That is something new in the theatrical world. Through long seasons, hopeful understudies hang about the dressing rooms or the curtain's edge, cheerful in the thought that the leading woman may stumble on a crack in the floor and break her neck or that the leading man may be blackjacked

just outside the stage entrance. But those things so rarely happen! The Shuberts have sympathetically decided to give the whole corps of understudies a chance at once and put them on in a single performance. It is a professional performance of "The Rose of Stamboul" to be given at the Century Theater, with the whole cast drawn from the understudies. Fancy having such a chance with an audience wholly composed of other actors and actresses to play for!

Most conspicuous in New York sporting stores today is the counter given to fire-arms. The "general stores" in Western towns of the early days made no more a feature of them than do ours on the avenues. The statement at Police Headquarters the other day that more than 35,000 permits to carry pistols had been granted during the crime wave probably has considerable to do with it. The most interesting thing is the great proportion of customers in the pistol departments of the stores who are women. They usually insist upon a small pistol that can be carried comfortably in a handbag. So don't shove too violently against some docile looking woman who happens to get in your way rushing.

ACT QUICKLY

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Ask your neighbor. Plenty of Maysville evidence of their worth.

Fred Dressel, proprietor tailor shop, 1233 East Second street, Maysville, says: "I am glad of the opportunity to recommend Doan's Kidney Pills. I was troubled with inflammation of the bladder and annoyance from my kidneys. When passing the secretions they burned terribly and often bordered on a stoppage. I had severe aching pains across the small of my back which greatly interfered with my duties. I was talking a friend how my kidneys acted and he advised me to get a box of Doan's Kidney Pills at Wood & Son's Drug Store. I began taking Doan's and they gave me prompt relief. Doan's did me lots of good and I know they are an excellent remedy."

Mr. Dressel gave the above statement February 6, 1908, and on November 22, 1920, he added: "I think just as highly of Doan's Kidney Pills today as I did when I gave my former recommendation many years ago. My cure has been a lasting one."

Price 60 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Dressel had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

The world loves a Cinderella. It's probably the most universal note in human nature. That is why the Brooklyn horse show had such an exceptionally successful day. Winona is a Cinderella. She was picked up on an auction block for a few dollars by some discerning person and bloomed out into a beauty.

The Flame Queen came to New York recently, but was deported unseen. The Flame Queen is not a new dancer but one of the most beautiful and largest opals that ever came to light. It was found in Australia and was brought here by Kelsey I. Newman, its owner, for exhibition purposes. As large as a hen's egg and of brilliant colors, it astounded the jewel experts at the Customs House—the only people who got a chance to see it. The officials decided that in spite of its art and educational value, it was still a jewel and could not be brought into this country without paying all the duty which would be demanded if it were to be sold here. So after costing its owner a small fortune in insurance it was taken home to Australia without adding one more heart pang to jewel-lovers here.

MANY HENS SCRATCH FOR

LICE AN DNOT FOR FEED.

Lexington, Ky. — "Make the hens scratch for their feed and not for lice," has been suggested by poultrymen at the College of Agriculture as a good watchword for Kentucky farmers during the coming summer. At least 75 per cent of the flocks in the state are troubled with lice and mites each summer, this condition not only lowering the egg production of the hens, but also weakening the vitality of the birds so that they are more apt to become infected with disease, it was pointed out.

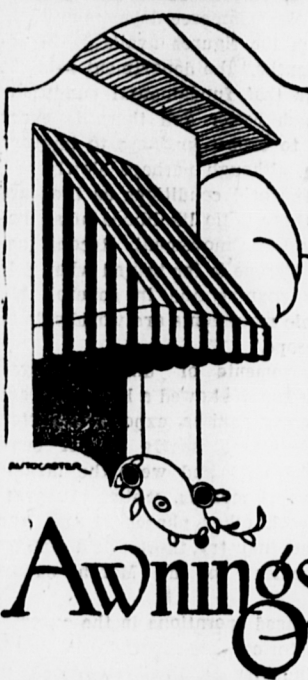

This is a good time of the year to get ahead of many of the lice and mites, which multiply more rapidly in hot weather, by having a spring cleaning of the poultry house, the poultrymen say. Such cleanings have been found to be effective means of reducing the number of pests in the houses and on the hens.

Lice live on chickens while mites stay on the roosts and in the cracks of the house and trouble the chickens only when they go to roost or are on the nest, J. R. Smyth, one of the poultrymen pointed out. This makes it necessary to follow different methods in ridding the flocks of the pests.

Sodium fluoride which can be purchased at any drug store is used either as a powder or a dip and has been found to be an effective means of controlling lice. When it is used as a dip for hens one pound is added to 10 gallons of lukewarm water. It is used full strength when the hens are dusted with it.

In controlling mites, it is necessary first to clean the house thoroughly and then spray it with a three to five per cent solution of some good stock dip. The roost poles are painted with a full strength solution of the same material or crude oil.

AGENT FOR THE R. J. PATTON CO., CINCINNATI

DID YOU KNOW THAT—

Charles Hutchinson, the Pathe "stunt" star in "Go-Get-Em Hutch" is a remarkable pianist, and can play the complete scores of all the best known operas.

Marguerite Clayton, playing the feminine lead in the Pathe serial "Go-Get-Em Hutch," once played cow-girl opposite "Broncho Billy" Anderson.

Richard R. Neill, who plays the villain in the Pathe serial, "Go-Get-Em Hutch," has played in stage productions with E. H. Sothern, Virginia Harned, W. H. Thompson and other celebrities.

Frank Hagney, appearing in a heavy role in "Go-Get-Em Hutch," the new Pathe serial, is a native of Australia and served for three years in the Boer War.

Cecile Bonnell, who plays an important part in the new Pathe serial "Go-Get-Em Hutch," gave up a career as a pianist to enter motion pictures, making her screen debut as Diana Deer in "Hurricane Hutch."

Pearl Shepard, who appears as the adventuresome in "Go-Get-Em Hutch," the new Pathe serial, is a New York girl and came to the screen via a beauty contest held at Madison Square Garden.

Joe Cuny, for the first time in Pathe serials, reforms in his villainous role in "Go-Get-Em Hutch," before the final reel of the chapter play.

STOVES TO THE RESCUE.

During the filming of the new Pathe serial, "Go-Get-Em Hutch," Charles Hutchinson, the famous "stunt" star, found himself in a situation in which he could not play the hero and make his usual daring rescue. The company, under the directorship of George B. Seitz, had hied themselves to a famous summer hotel at Block Island.

But this was winter and the hostelry had closed for the season. Nevertheless, the genial manager threw open his establishment to the company, who welcomed his hospitality. Unfortunately, the cold wave came and the group of actors found themselves almost frozen to death. The fires were all out, with no wood or means to warm the hotel. Hutchinson, Richard Neill, Frank Hagney and Joe Cuny went out in the woods and foraged for fire wood while Marguerite Clayton, Cecile Bonnell and Pearl Shepard hired an automobile to the nearest village to purchase stoves. When all this was accomplished, the Pathe actors all gathered around the fire and thawed out.

THREE KILLED, SEVEN INJURED AS TRAIN LEAVES TRACK.

Memphis, April 30. — Three trainmen were killed today when a freight train on the Asheville, Chattanooga & St. Louis Railroad ran into an open switch in the train yards here and was derailed. A fourth member of the train crew was seriously injured.

Shortly after the accident an automobile, occupied by six negroes, crashed into the wreckage, which blocked a street crossing. Every member of the automobile party was injured.

THEATER TREASURER MISSING FROM HOME IN NEWPORT.

Newport. — Mrs. George Schoettie announced that her husband, who is treasurer of the Grand Opera House

in Cincinnati, has been missing from his home about two weeks. Friends of Mr. Schoettie said he had complained of ill health since the first of the year. His accounts at the opera house are reported in excellent shape.

WITHOUT STREET ADDRESS YOUR MAIL IS DELAYED AT OFFICE OF DELIVERY

The Dead Letter Office has been in existence ever since Ben Franklin started our postal service. Even then people addressed mail to Mr. Ezekiel Smithers, "Atlantic Coast," and expected Ben to know just where Zeke lived.

Perhaps they had Zeke's address in letters up in the garret, maybe a chest full of 'em, but then it was easier to let Ben hunt Zeke. Today people are addressing letters to John Smith, New York, N. Y., or Chicago, Ill., thinking Uncle Sam can locate him, which is just as incomplete as was Zeke's address of yore. The Postoffice Department asks you to put the number and street in the address. It helps you.

Trinidad Col.

How do you expect the Postal Clerk to know whether you mean Trinidad, California, or Trinidad, Colorado? ALWAYS SPELL OUT THE NAME OF THE STATE IN FULL IN THE ADDRESS.

"MORE BUSINESS IN GOVERNMENT"

This apt phrase was used in President Harding's first message to Congress and applies particularly in postal management where postmasters are being impressed with the fact that they are managers of local branches of the biggest business in the world.

HERE COMES A STRANGER!

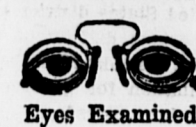

Let's make our post office look neat. Mr. Postmaster, straighten up the rural letter box. Mr. Farmer, tidy up some, Mr. Rural Carrier. First impressions are lasting. Maybe Mr. Stranger, taking notice of these improvements, will come back, bringing you benefits. Start these with "POSTAL IMPROVEMENT WEEK" May 1-6.

HUMANIZING THE POSTAL SERVICE

"There is no unimportant person or part of our service. It is a total of human units and their co-operation is the key to its success. In its last analysis, postal duties are accommodations performed for our neighbors and friends and should be so regarded, rather than as a hired service performed for an absentee employer." — Postmaster General Hubert Work.

WAR MEMORIAL FUND IS NEAR \$200,000; CHILDREN AID

More than Two-thirds the Amount Necessary for Memorial Building at State University Has Now Been Raised.

Renewed efforts to secure subscriptions to the \$300,000 fund for the erection of memorial building on the campus of Kentucky University at Lexington in honor of Kentuckians who lost their lives in the World War will be carried on this week by the "flying squadron" of students and campus workers, Herbert Graham, campaign manager, said Monday.

The drive will not close until the whole amount is raised, James C. Willson, state chairman, stated Saturday. Alumni of the university have subscribed more than \$6,000, and efforts will be made to double this amount, Mr. Graham said. Only a few reports from local committees have been received, but indications are that the amount already subscribed is past the \$200,000 mark.

In Maysville the campaign is being carried out with the aid of the school children. Every student in the Maysville public schools has been asked to raise one dollar toward the fund. This money will be given the children by their parents and friends.

Maysville and Mason county should take a special interest in this campaign as the beautiful poem "In Memoriam," written by Mrs. C. L. Wood of this city, has been chosen from a large number of others to be engraved on the wall of the new memorial to the Kentucky soldiers and sailors of the late World War.

SAWYER A. SMITH BOOMED FOR GOVERNOR IN KENTUCKY

Republicans Boost District Attorney For Republican Nomination for Governor of the State.

Prominent Republicans in the state have started an effort to have Sawyer A. Smith, United States district attorney for the eastern district of Kentucky, become a candidate for the Republican nomination for governor, it became known here Tuesday.

Much attention has been drawn toward Mr. Smith during the few months he has been district attorney by reason of his energetic prosecution of alleged liquor law violators haled into federal court. The suggestion that he be asked to become a candidate for governor is said to have been made first by citizens of Newport, who had an opportunity to observe the district attorney's work in the recent "clean up" campaign in that city.

The Covington term of court, in which the Newport cases were tried, was followed closely by a term at Frankfort during which five alleged notorious whisky law violators were convicted, three of them drawing penitentiary sentences. The conviction last week at Richmond of seven men on charges of conspiring to remove whisky illegally from bonded warehouses was due largely to the vigorous prosecution of the district attorney, according to prohibition officers.

Mr. Smith is a native of Knox county and had resided in Barbourville practically all his life. He was an assistant district attorney during the Taft administration and later served a term in the Kentucky legislature.

JURY BLAMES VICTIM.

Louisville, Ky., May 1.—A Coroner's jury this afternoon returned a verdict attributing the death of W. D. May, Middletown, traveling salesman, to the carelessness of the victim. May was injured fatally when his motor car collided with that of Governor Edwin P. Morrow near Middletown, March 21.

SHOOTS GIRL; KILLS SELF.

Gary, Ind., May 1.—When the parents of fifteen-year-old Sophie Kovach refused to permit her to be married to him, Frank Wagner, 25 years old, fired five shots into the girl's body today, and then turned the gun upon himself, ending his life. The girl is expected to die.

OVER THOUSAND ARE KILLED IN BATTLE IN GREAT CHINESE WAR

Japanese Artillerymen Aid Forces of Chang Tsin Lo in Battle Before Chang Sing Tien Where Many Soldiers Fall.

Shanghai, May 2.—More than 1,000 soldiers of the army of General Wu Pei Fu fell in battle before Chang Sing Tien yesterday, according to an official communique issued by the Wu Pei Fu headquarters at Chochow today.

The chief of staff of the Central Army said the encircling movement of Wu Pei Fu's forces, on the southwest of Peking, had been frustrated by the superior artillery fire of the Chang Tsin Lo forces.

Japanese gun pointers are assisting the artillerymen of Chang's Manchurian army, according to a statement from Wu Pei Fu's headquarters, and this accounts for the superior accuracy of the northern artillery, which has turned an apparent victory into a costly check.

Fresh attacks along a long battle front before Chang Sing Tien were launched today.

LOVE DUEL ENDS IN DEATH OF TWO

Underworld Feud Is Bared in Death of Two at Philadelphia This Morning.

Philadelphia, May 2.—Two men were shot and killed early today in what police believe was an underworld feud. Conflicting accounts of the affair, which occurred in a house at 1025 Mellon street, are being investigated.

Harry Stinger, 35, who died in a hospital of three bullet wounds, said he had killed "Buck" Bailey in a pistol duel, according to the police. Bailey was shot five times. Stinger's story was that the men had quarreled over a woman, police said.

Another version was given by Hyman Gold, arrested after the shooting. He said Stinger and Bailey were shot by six men who drove to the house in an automobile and began firing wildly in the parlor.

Residents of the vicinity told police they saw two automobiles, each containing about six men, stop at the house a few minutes before the firing was heard. The woman, named by Stinger as the cause of the shooting, escaped in one of these cars.

DIAMOND RUSH IS ON

New York, May 2.—Bringing 500 karats of rough diamonds from the jungles of British Guiana, William J. LaVarre, of New York and Washington, stepped off the steamship Vauban and announced to civilization he had discovered a "second Kimberly of wealth."

LaVarre, who explored the Amazon Valley for Harvard University in 1916, has been prospecting near Georgetown, capital and chief port of British Guiana. Hundreds of other diamond seekers are pouring into the country every month, he said.

NO CONTAGIOUS DISEASE IN COUNTY DURING APRIL

The Mason County Health Department's monthly bulletin for April in regard to contagious diseases says:

The county has been remarkably free from contagious diseases during month. Not one case of smallpox scarlet fever, measles, diphtheria or any other communicable disease has been reported during the month. The record for April one year ago was five cases of smallpox, two cases of measles and one of diphtheria.

BUSINESS IN AMERICA MAKING GOOD ADVANCE

Report of Federal Department of Commerce Shows That Business in Nation Is Steadily Improving.

Washington, May 2.—Increased production, more stable prices, and a larger export trade are shown in the survey of current business issued today by the commerce department.

"From the figures available in recent months," the department said, "it is clear that fundamental conditions are much better and there is every reason to expect business to improve steadily although perhaps slowly."

"With world conditions as they are today there is no likelihood of an immediate boom movement. Reconstruction in Europe is far behind what it is in this country and in general, big economic movements are worldwide in their scope."

Improvements of unmanufactured wool in March showed a large increase over recent months, exports of cotton cloth increased nearly 50 per cent. over February and were the largest for several months, while, in agreement with other phases of the iron and steel industry, there was a distinct improvement in the March export trade.

Increased operations in the automobile factories were reported, the petroleum industry set new high records in March in all directions and a marked increase in the production of newspaper print was noted. Building materials were more active, exports of copper, wheat, beef and other food products were increasing and while a slight increase in rise in wholesale prices was noted, retail prices were on the decline.

THREE KILLED WHEN LOCOMOTIVE EXPLODES.
